

EGA MLP Quality Core

Strategy Profile

As of June 30, 2020

Strategy Overview

Eagle Global Advisors MLP Quality Core strategy seeks to provide investors access to the core value proposition of the MLP and Midstream asset class through a concentrated quality core portfolio of midstream MLPs and energy infrastructure companies. The strategy targets a combination of distributions and long-term price appreciation. Efforts are made to increase tax efficiency for taxable investors through low portfolio turnover and tax loss harvesting (if available). Portfolios are managed by a team of dedicated MLP and Midstream infrastructure experts with a long history of success.

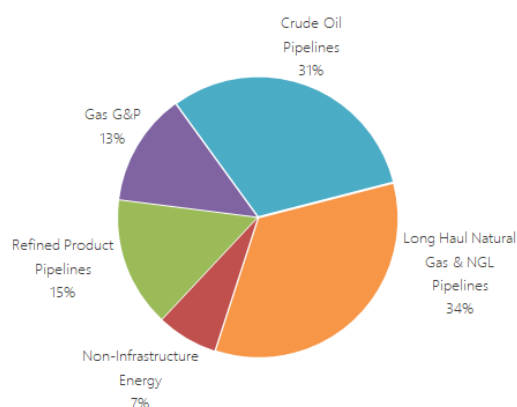

Eagle Global Advisors, LLC

- SEC Registered Investment Advisor, founded November 1996
- \$1.8 Billion assets under management***
- 32 employees including 15 investment professionals
- Dedicated MLP and Midstream Team averages over 20 years of experience

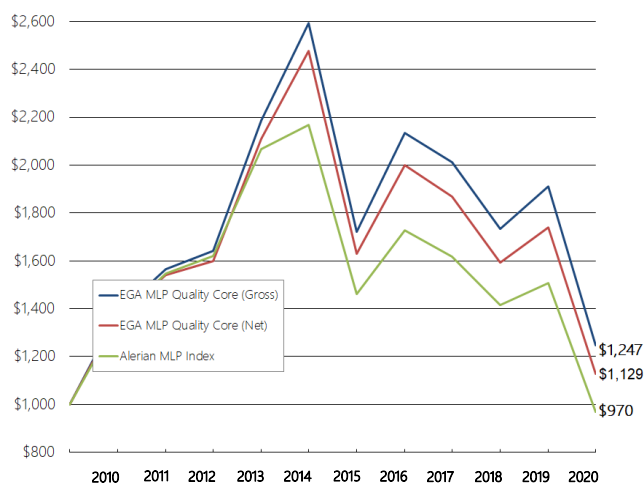

Investment Highlights

- **Essential Infrastructure:** MLPs and Midstream build and operate pipelines and storage facilities for the transmission of vital domestic energy supplies
- **Strong Cash Flow:** Cash flows generated are stable and predictable
- **Distributions:** Majority of cash flows are distributed to unit holders
- **Tax Efficiency:** Distributions are largely a return of capital**
- **Inflation Protection:** Distributions have grown over time, providing an effective inflation hedge

Portfolio Composition

Growth of \$1,000 Eagle vs. Alerian MLP Index (2010-2020)

* Benchmark: Alerian MLP Index.

EGA MLP Quality Core Composite - The EGA MLP Quality Core Composite consists of those portfolios invested in mid-stream master limited partnership (MLP) units.

- For GIPS purposes, Eagle Global Advisors, LLC is an independent investment advisor, registered with the SEC, actively managing individual investment portfolios containing domestic equity, international equity, master limited partnerships, and domestic fixed income securities, (either directly or through a sub-advisory relationship), for mutual funds, high net worth individuals, retirement plans for corporations and unions, financial institutions, trusts, endowments and foundations. SEC registration does not imply a certain level of skill or training.
- Eagle Global Advisors, LLC claims compliance with Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with GIPS standards. Eagle Global Advisors, LLC has been independently verified for the periods 1/1/1997 to 12/31/2019 by Dabney Investment Consulting Associates, Inc. The verification reports are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. Only direct trading expenses are deducted when presenting gross of fee returns. In addition to management fees, actual client returns will be reduced by any other expenses related to the management of an account such as trustee fees or custodian fees. The currency used to express performance is the U.S. dollar. Returns are calculated net of non-reclaimable foreign withholding taxes on dividends, interest, and capital gains. Reclaimable withholding taxes are not accrued, but are cash basis as received. Eagle uses the asset-weighted standard deviation as the measure of composite dispersion of the individual component portfolio gross full period returns around the aggregate composite mean gross return. If the composite contains 5 portfolios or less (<=5) for the full period, a measure of dispersion is shown as not meaningful (N/A) and the number of portfolios is not reported. Past performance cannot guarantee comparable future results. All investments involve risk including the loss of principal. This presentation is only intended for investors qualifying as prospective clients as defined by GIPS.
- The composite start date is January 1, 2010 and was created in 2011. The composite consists of those MLP quality core separate account portfolios where the firm has full investment discretion, the client pays a fee, the portfolio contains over \$250,000 in MLP units, and the portfolio properly represented the intended strategy at the end of the calendar quarter. All performance returns assume the reinvestment of dividends, interest, and capital gains.
- The benchmark is the Alerian MLP Index, a composite of the 50 most prominent energy master limited partnerships calculated by Standard & Poor's using a float-adjusted market capitalization methodology. Prior to 12/31/2015, the composite benchmark was the Alerian Large Cap MLP Index, an equal-weighted composite of the 15 largest energy MLPs by market capitalization. Subsequently, and historically, the benchmark has been changed to the Alerian MLP Index. The benchmark change is due to the benchmark provider, Alerian, modifying the Alerian Large Cap MLP Index. This benchmark change does not indicate a change in the composite investment strategy.
- The indices shown are for informational purposes only and are not reflective of any investment. As it is not possible to invest in the indices, the data shown does not reflect or compare features of an actual investment, such as its objectives, costs and expenses, liquidity, safety, guarantees or insurance, fluctuation of principal or return, or tax features. Indices do not include fees or operating expenses and are not available for actual investment. Indices presented are representative of various broad based asset classes. They are unmanaged and shown for illustrative purposes only. The volatility of the indices is likely materially different than the strategy depicted. Eagle Global's MLP strategies include buying and selling various MLP related assets. Such assets can and do include actual MLPs, general partners, C-corps that own MLP assets, and shipping companies. Holdings will vary from period to period and non-MLP assets can have a material impact on the performance.
- The Eagle list of composite descriptions is available upon request. Eagle policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

MLP Quality Core Fee Schedule (minimum annual fee: \$2,500)

Account Size	Under \$5 million	\$5 to 25 million	Over \$25 million
Annual Fee	0.95%	0.85%	0.75%

Representative Example of Compounded Effect of Investment Advisory Fee

A maximum 1.00% management fee deducted from a portfolio quarterly (0.25%/quarter) would result in the following cumulative compound reduction of the portfolio time-weighted rate of return.	Years	Cumulative Fee	Years	Cumulative Fee
	1	0.953%	6	5.858%
	2	1.916%	7	6.868%
	3	2.888%	8	7.887%
	4	3.868%	9	8.915%
	5	4.859%	10	9.954%
