

### Eagle Global Advisors, LLC

- Registered Investment Advisor founded in 1996
- \$1.8 Billion assets under management; \$392 million in Midstream and MLPs\*
- 32 employees including 15 investment professionals
- Dedicated MLP and Midstream Team averages over 20 years of experience

### Eagle Investment Philosophy

Eagle believes the appropriate way to build and preserve wealth through investing in Master Limited Partnerships and Midstream is to focus on Midstream companies and MLPs that have strong, stable, and sustainable business models. Eagle's investment methodology favors companies with limited or no commodity price exposure, strong balance sheets, and proven management commitment that are attractively valued based on current and prospective distributions.

### Eagle Investment Process

Eagle's dedicated Midstream and MLP investment team builds detailed cash flow models to analyze the cash distribution power of each Midstream company and MLP over a multi-year time horizon. Portfolios are constructed "bottom-up" with average holding periods of approximately five years.

### Eagle MLP and Midstream Investment Strategies

- Separate Accounts
- Partnerships
- Open-End Mutual Fund with RIC tax status (no fund level tax)

#### Midstream and MLP Separate Accounts

### MLP Performance

### MLP and Midstream Investment Thesis

MLPs and Midstream companies offer investors the opportunity to participate in the expected growth of U.S. energy production with lower commodity price risk, more stable cash flows, and higher current distributions than traditional energy investment options like Exploration and Production (E&P) companies.

### MLP and Midstream Highlights

- **Essential Infrastructure:** MLPs and Midstream companies build and operate pipelines and storage facilities for the transmission of vital domestic energy supplies
- **Distributions:** Majority of cash flows are distributed to unit holders
- **Tax Efficiency:** Distributions are largely a return of capital
- **Inflation Protection:** Distributions have grown over time, providing an effective inflation hedge
